Planning for Summer Fun

This Summer Vacation Care we have nine water days planned! The activities involve excursions to pools with waterslides and giant inflatable waterslides here at OSHC. Please ensure your child/ren come prepared with swimmers, a “rashie” and a towel. Don’t forget to fill in the swimming forms when you book!

Please remember that all children need to bring a hat (wide brim or legionnaires style – caps are not suitable), appropriate shoes for running around, sun smart attire (tops with sleeves, etc.), a morning snack, lunch and a water bottle.

On excursion days children need to be signed in by either 8:30 or 9:00 to enable the group to leave on time. Please check the Vacation Care program for these details.

Finally, we would like to thank the families of Year 7 students and others who are moving on to new schools next year for their support over the years and wish them all the best for the future!

---

**Upcoming Dates:**

**11 December 2015:**
Last day of school for 2015
2:10pm dismissal
After School Care starts one hour earlier on this day.

**1 February 2016:**
School resumes
By Allan

I am in year seven. I liked going to OSHC. It was a good experience for me when I had nothing to do. I remember the first day I was here. I was afraid but I then started having a lot more fun. Right now I am still enjoying it.

The new furniture in the Quiet Room is good for all children like the comfortable couches and the wobbly chairs. They are really nice and there is room for everyone. There is a variety of activities you can do of indoor and outdoor activities.

In high school it will be a lot more different to OSHC and primary school because of after school sports and how we have to change classroom teachers.

Drama Room Update

A convenient room swap has given OSHC the two rooms on the south side of the Expressive Arts building. Children have been busy helping to set up in time for Vacation Care. Come in and have a look!

Kitchen Update

This term we have replaced some kitchen appliances that had seen better days. The new oven and industrial dishwasher are considerably more efficient and effective.
